## LOCAL AUTHORITY

Stylessetting architects and interior designers reveal their hometown secrets—from where to eat and drink to the best gardens

**NASHVILLE, TENNESSEE**  
RAY BOOTH, INTERIOR DESIGNER  
"Everyone in the music world here shops at Imogene + Willie. They do incredible tailored jeans and sell fantastic home goods. I'm totally addicted to their scented candles."

**SAN FRANCISCO**  
RICHARD BEARD, ARCHITECT  
"You could lead a whole tour eating your way across town, but Zuni Café is a favorite. They make the best hamburger I've ever had in my life. It's only on the menu at lunch and late at night, after ten."

**CHICAGO**  
DIRK DENISON, ARCHITECT  
"Three Dots and a Dash serves fantastic tiki cocktails in a wonderfully hidden space—through an alley, down some stairs, and into the basement of a historic building."

**SAN ANTONIO**  
DAVID LAKE, ARCHITECT  
"You always hear about the Alamo, but our most beautiful missions are San José and Concepción. They're on a new 16-mile trail along the river. You can bike the path while admiring the architecture."

**NEW ORLEANS**  
LEE LEDBETTER, ARCHITECT  
"Granted, I worked on it, but the sculpture park at the New Orleans Museum of Art is amazing—as much for its collection as its setting. How often do you see a Louise Bourgeois spider beneath a 250-year-old live oak?"

**LONDON**  
NICKY HASLAM, INTERIOR DESIGNER  
"Dukes Hotel has the martini. They make Sacred Gin, which is in small batches by distillery in Highgate."

**DALLAS**  
MICHELLE NUSSBAUM, INTERIOR DESIGNER  
"It's impossible to eat and not eat barbeque. Bryan's Smokehouse is the best in the city—served in style, with ever outside at picnic."

**LOS ANGELES**  
KELLY WEARSTLER, INTERIOR DESIGNER  
"I practice at HOK twice a week, and the incredible facilities, heat and oxygen in the room. So invigorating!"

## ST. HELENA, CALIFORNIA HOWARD BACKEN, ARCHITECT

"We just converted a landmark 1870s building at **Charles Krug**, Napa Valley's oldest winery, into a great new tasting room lined in redwood reclaimed from the original wine tanks."
