## 30 THINGS TO DO IN NAPA VALLEY WINE COUNTRY

*There are so many things to do in Napa Valley that I could have easily thought of more than 30. Napa Valley has a lot to be proud of. In addition to truly beautiful scenery, this small area of Northern California boasts some of the world's best wine and food. The combination of excellent soil and weather conditions makes fertile ground for olives, nuts, fruit, and of course wine, including all the French varietals and the region's prized grape, Cabernet Sauvignon.*

Crocker & Starr

### 10. Try Napa Valley's Boutique Wineries

Boutique wineries produce wine with extra care in small quantities from estate vineyards. Because these are smaller wineries that take pride in their work, you're more likely to receive personalized service and taste more unique wines at boutique wineries in Napa Valley. **Try Crocker & Starr for very high quality reds and a superb Sauvignon Blanc. The winemaker, Pam Starr, just might stop by to say hi.**
