Domaine Carneros Brunch/Bites OR Ultimate Chips and Dip *Carneros*

TAITTINGER

So, when it comes to what to try at this epic estate, it is a tie! The brand was founded by none other than the family behind sparkling icon Champagne Taittinger, so you know we have to talk bubble pairings here. But, do not sleep on the pinot noir here either, as an aside. As for the ultimate in experiences on-site, first there is the brunch, available seasonally. When not in season, there is an alternative tasting experience that changes regularly, notably celebrating everything from the flavors in Mexico to the cuisine of Morocco and how each pair with their wines. Alternatively, consider the chips and dip experience. The “dip?” That would be caviar! This exclusive experience features three ample pours of bubbles paired with three types of Tsar Nicoulai Caviar and to-die-for gourmet potato chips, toast points and crème fraîche.
